

Finance

One of the specialties at the Faculty of Economics and Management of Mingachevir State University is Finance.

Finance is a branch of the economy, the state is engaged in the search for financial resources of the enterprise and the management of scientific funds. Finance includes business finance, individual finance and public finance. Finance involves raising money and usually lending money. It mainly deals with the concepts of time, money and risk and their interrelationships. At the same time, it is engaged in spending money and preparing a budget. The disciplines taught in finance allow students to gain the theoretical knowledge required to specialize in both public finance (tax administrator, financial auditor) and private sector finance (insurance specialist, bank specialist, financial manager).
